JAX Microfinance Fund

missioninvestors.org
JAX Microfinance Fund

The JAX Microfinance Fund (JMF) is helping to level the lending playing field for under-resourced borrowers in Northeast Florida. The JMF invests in innovative and non-predatory online platforms that will lend to small business owners and individuals in seven counties, emphasizing lending to women and people of color.
RECAP

The Jessie Ball duPont Fund seeded the JMF with an investment to increase access to affordable capital to under-resourced borrowers—providing a more equitable lending ecosystem in Northeast Florida.

The Need
Predatory lending strips low-wealth residents and communities of color of their opportunity to access affordable capital and build wealth that would raise up entire communities. It is estimated that about 170,000 Jaxsons rely on high-interest lending through payday lenders, pawn shops, auto and online personal loans.

The Opportunity
The JAX Microfinance Fund (JMF) will identify and invest in technology platforms to connect borrowers to capital.

JMF will also connect borrowers to local credit unions and CDFIs for credit repair and credit builder programs to support long-term access to affordable capital.

The Impact
1) Increase access to capital for under-resourced borrowers
2) Ensure loan capital is affordable or priced below predatory lending rates
3) Contribute to a healthier and more equitable lending ecosystem in Northeast Florida
4) Mitigate risk among investors and provide a return on their investment.
About JAX Microfinance Fund

The JAX Microfinance Fund (JMF) is designed to level the lending playing field for under-resourced Northeast Florida borrowers. JMF invests in innovative non-predatory fintech platforms that will lend to small business owners and individual/consumers, emphasizing women borrowers and borrowers of color. The first investment from the JMF is in Honeycomb Credit, a crowdfunding investment platform for small businesses that is now working in Northeast Florida.

Geography

Seven counties in Northeast Florida:

- Baker
- Clay
- Duval
- Flagler
- Nassau
- Putnam
- St. Johns
The Jessie Ball duPont Fund seeded JMF with a $300K investment. The total investment target for JMF is $650K with a min of $400K and max of $750K. Full capital deployment is anticipated by the end of 2023.

Through JMF’s first investment in Honeycomb Credit, six Northeast Florida small businesses and entrepreneurs have successfully completed crowdfunding campaigns since May 2022.
Honeycomb has provided small business owners like myself a model where we can grow with our community, and everyone prospers. I’m excited to fund Irie Diner’s next phase with the backing of my community and those who patron my restaurant.

PETER JACKSON
IRIE DINER CARIBBEAN RESTAURANT,
ORANGE PARK, FL
Jacksonville is one of the fastest-growing metropolitan areas in the country. Small businesses are eager to meet this growing demand but may not have the same access to capital as corporate chains. Honeycomb is helping bridge this gap by encouraging members of the community to invest local.

GEORGE COOK
HONEYCOMB CREDIT
Launched in June 2022, JMF is designed to track these metrics over time:

- Small business loans deployed
- Borrowers who save on interest rate
- Individual/consumer loans deployed
- Borrowers in low-income communities
- Small business loans repaid
- Women borrowers
- Individual/consumer loans repaid
- Borrowers of color
- Borrowers connected to JMF via platform
- Jobs supported
- Borrowers connected to local lender
- Small business year-over-year revenue

100% of investments (to date) have been in businesses owned by women and people of color.
Supporting our region’s small businesses – who are also key employers – is core to our shared goal of creating a more vibrant, inclusive community.
